

About Us

Sky Lakes Medical Center is a not-for-profit, community-owned, internationally accredited acute-care teaching hospital dedicated to the people it serves.

Sky Lakes serves more than 80,000 people in Klamath and Lake counties in south-central Oregon and Modoc and Siskiyou counties in northern California.

The Sky Lakes family includes the Sky Lakes Cancer Treatment Center, which opened in 1990 after a successful community fundraising campaign. Its size doubled in the mid-1990s and again in 2003, and it continues to provide the most current treatments in cancer and in blood disorders for Klamath Falls and the surrounding communities.
